

ADVANCED LEASE SYSTEMS FOR WINDOWS **MINIMUM SYSTEM REQUIREMENTS**

Network System:

Server: *(File Storage Only)*

1. Windows 2003 Server or newer
2. A minimum of 200 MB of free disk space plus 30 MB for a 500 lease/loan maximum system. (Multiply accordingly for larger systems.)
3. Backup system capable of backing up the disk space as outlined above.
4. .Net Framework 4.0 (available free from <http://www.microsoft.com/net/>).

Workstations:

1. Windows XP SP3 or newer with a minimum of 512 MB of RAM (Memory)
2. Monitor with minimum setting of 1024x768 DPI resolution.
3. A minimum of 60 MB of free disk space.
4. .Net Framework 4.0 (available free from <http://www.microsoft.com/net/>) This is a standard windows update on Windows 7 or Newer machines.

CarCalc Only:

1. Microsoft SQL Server 2008 or Newer. The free version of Microsoft SQL Express 2008 will work and is available for download from Microsoft.

Stand Alone Systems (Single PC installation)

1. Windows XP SP3 or newer with a minimum of 512 MB of RAM (Memory)
2. Monitor with minimum setting of 1024x768 DPI resolution.
3. 260 MB of free disk space plus 30 MB for a 500 lease/loan maximum system. (Multiply accordingly for larger systems.)
4. Backup system capable of backing up the disk space as outlined above.
5. .Net Framework 4.0 (available free from Microsoft.com)

Additionally, at least one of the workstations or the server must have Symantec PcAnywhere version 10.0 or newer using an Internet connection. Other software such as GoToMyPC.COM, Remote Desktop or similar are also acceptable as long as it provides ALS Support access to the ALS files, the ability to run the software and file transfer capabilities.
